A blue banner with a pattern of small white dots. In the top left corner is the NUS logo and the text 'NUS National University of Singapore' and 'College of Humanities and Sciences'. In the top right corner is the 'OPEN HOUSE' logo with '4TH MARCH 2023' below it. The main text in the center reads 'Mathematics in NUS: A Door that Opens to Many Possibilities'. Below this, separated by a horizontal line, is 'Professor Victor Tan' and 'Dept of Mathematics'. In the bottom right corner, the contact information 'AskMathUG@nus.edu.sg' and '+65 6516 2738' is displayed.

## Doing the Math to find the Good Jobs

CAREERS | JANUARY 26, 2009, 11:20 A.M. ET

### Doing the Math to Find the Good Jobs

Mathematicians Land Top Spot in New Ranking of Best and Worst Occupations in the U.S.

By SARAH E. NEEDLEMAN

Nineteen years ago, Jennifer Courter set out on a career path that has since provided her with a steady stream of lucrative, low-stress jobs. Now, her occupation -- mathematician -- has landed at the top spot on a new study ranking the best and worst jobs in the U.S.

"It's a lot more than just some boring subject that everybody has to take in school," says Ms. Courter, a research mathematician at mental images Inc., a maker of 3D-visualization software in San Francisco. "It's the science of problem-solving."

The study, released Tuesday from CareerCast.com, a new job site, evaluates 200 professions to determine the best and worst according to five criteria inherent to every job: environment, income, employment outlook, physical demands and stress. CareerCast.com is published by Adicio Inc., in which Wall Street Journal owner News Corp. holds a minority stake.)

The findings were led by Les Krantz, author of "Jobs Rated Almanac," based on data from the U.S. Bureau of Labor Statistics and the Census Bureau, as well as studies from trade associations and Krantz's own expertise.

- Income
- Employment outlook
- Physical demands
- Stress
- Environment

CareerCast.com

...because they ... indoors and in places free of toxic fumes or noise -- unlike those toward the ... bricklayer. They also aren't expected to do any heavy lifting, crawling or crouching -- attributes associated with occupations such as ... measuring each job's median income and growth potential. Mathematicians' annual income was pegged at \$94,160, but Ms. Courter, ... gns mathematically based computer programs, some of which have been used to make films such as "The Matrix" and "Speed Racer." ... time or feels stressed out. "Problem-solving involves a lot of thinking," says Ms. Courter. "I find that calming."

Other jobs at the top of the study's list include actuary, statistician, biologist, software engineer and computer-systems analyst, historian and sociologist.

## Mathematics Programme

4-year honours degree programme

### How to apply?

Select “[NUS – Humanities & Sciences](#)” as one of your course of choices  
Once accepted to CHS, you can declare Mathematics as major

You need a good H2 pass or equivalent in Mathematics or Further Mathematics.

## Mathematics Programme

- Offers a wide range of pure and applied math modules and a broad spectrum of mathematical research activities
- Includes the study of mathematical methods and problem-solving techniques that are applied in science and other disciplines
- 3 Specializations (optional):
  - a. Data Modelling and Analytics
  - b. Operations Research and Analytics
  - c. Pure Mathematics

## Math Module Requirement

### 1 Gateway Module

- MA1100 Basic Discrete Mathematics
- MA1100T Basic Discrete Mathematic

### 6 Essential Modules

- MA2001 Linear Algebra I
- MA2002 Calculus
- MA2101 Linear Algebra II
- MA2104 Multivariable Calculus
- MA2108 Mathematical Analysis I
- MA2116 Probability

### 1 Project Module

- MA4198 Mathematics Capstone Project

### 7 Elective Modules (sample)

- MA3206 Set Theory
- MA3210 Mathematical Analysis II
- MA3211 Complex Analysis I
- MA3218 Applied Algebra
- MA3220 Ordinary Differential Equations
- MA3252 Linear and Network Optimization
- MA3259 Mathematical Methods in Genomics
- MA3236 Nonlinear Programming
- MA3264 Mathematical Modeling
- MA3265 Introduction to Number Theory
- etc

## Math with Specialization

### 5 additional modules at 4000 level

#### Pure Mathematics

- MA4203 Galois Theory
- MA4207 Mathematical Logic
- MA4221 Partial Differential Equations
- MA4229 Fourier Analysis and Approximation
- MA4262 Measure and Integration
- MA4271 Differential Geometry in Curves and Surfaces
- MA4273 Algebraic Geometry in Curves and Surfaces

#### Operations Research and Analytics

- MA4235 Graph Theory
- MA4251/ST4238 Stochastic Processes II
- MA4254 Discrete Optimisation
- MA4260 Stochastic Operations Research
- MA4264 Game Theory
- MA4270 Data Modelling & Computation

#### Data Modelling and Analytics

- MA4229 Fourier Analysis & Approximation
- MA4230 Matrix Computation
- MA4255 Numerical Methods in Differential Equations
- MA4261 Coding and Cryptography
- MA4268 Mathematics for Visual Data Processing
- MA4270 Data Modelling & Computation

## DDP and DMP

- Double Degree Programme: Computer Science and MA

- Double Major Programmes:

MA + Second Major

Management (Biz)
Business Analytic (SoC)
Computer Science (SoC)
Information Security (SoC)

Many other DDP/DMP combinations

### How to apply? Direct Admission

Select “NUS – Humanities & Sciences” as one of your course of choices  
Then select DDP or DMP with your choice combinations

## Special Programme in Mathematics

- For selected students with strong passion and aptitude in mathematics.
- Provides in-depth study and rigorous training through specially designed modules and close mentorship.
- Students will build a firm foundation to pursue graduate programmes and future careers in the mathematical sciences

### How to apply?

Not through university admission exercise  
Apply from Semester 2 of the first academic year
